

5. I request Ministry of Textiles to take the lead and coordinate with this mission for participation of Indian companies (importers/exporters/machinery manufacturers) from textile sector. I am also copying this letter to Secretary, Heavy Industries which is the nodal ministry for technological up gradation of machinery sectors and to TMMA, AEPC, Textile Association of India, North India Textile Mills Association, Power loom Development and Export Promotion Council, Man made Textile Research Centre(MTRC),SITRA for information and participation of member companies in the event. Embassy will very soon send the list of Italian companies from the textiles sector who will be participating in this event at Bergamo, Milan and Mantova. I strongly feel this event will lead to good interaction between companies of both sides and will lead to technology infusion to a sector which is in need. A senior official from Ministry of Textile may kindly be identified to liaise with the commercial wing of this mission.
